DSA with Java

Introduction to cybersecurity

Rahul Kumar Rai

Profile

I am a B.Tech/BE student in Computer Science and Engineering at Vivekananda Global University College. I am passionate about technology and have strong skills in programming, data structures, algorithms, and software development. I am also proficient in various programming languages, including Python, and Java. I am eager to learn new technologies and apply my skills to real-world problems.

Work Experience

Full Stack Developer

🏢 Edunet Foundation
📅 Dec 2024 - Jan 2025

I contributed to the development of web applications as a Full Stack Developer Intern at Edunet Foundation (Internship, 2024-2025). I gained practical experience by writing code, debugging, and implementing features. My role involved utilizing programming skills to address project requirements and collaborate with the development team.

Education

Sustainable Architecture

🏢 Vivekananda Global University (VGU), Jaipur, Rajasthan
📅 2023 - 2027 • Intermediate • Computer Science And Engineering

B.Tech/BE (Bachelor of Technology/Bachelor of Engineering)

🏢 Vivekanand global University
📅 2023 - 2027 • Graduation • Computer Science And Engineering

I am currently pursuing a Bachelor of Technology/Bachelor of Engineering (B.Tech/BE) degree in Computer Science and Engineering at Vivekanand Global University Institute, expected completion in 2027. Enrolled in 2023, currently in the second year of the program.

Projects

College Event Management System | MERN Stack

Description: Designed and developed a full-stack web portal to streamline event organization and participation for college activities. Key Features: Centralized platform for managing diverse events: Hackathons, Mentorship Programs, College Fest, Internship Drives, and Placement Drives. User-friendly interface for event registration, scheduling, and notifications. Admin dashboard for event creation, participant tracking, and analytics. Technology Stack: Frontend: HTML, CSS, JavaScript, ReactJS Backend: NodeJS, Express Database: MongoDB

Achievements

100 Days of Consistent Coding on CodeChef

Solved problems daily for 100 consecutive days, demonstrating discipline and consistency in competitive programming.

Winner – District Chess Tournament (Under-14)

Secured 1st place in the District-level Chess Tournament in the Under-14 category. Demonstrated strong strategic thinking, focus, and problem-solving skills under competitive pressure.
